

Partnership with SLNCR

Société Luxembourgeoise de Neurochirurgie et de Chirurgie du Rachis

Dear Sir or Madam,

Founded on July 9, 2024, with the initiative and support of the European Association of Neurosurgical Societies (EANS), the Luxembourgish Society of Neurosurgery and Spine Surgery A.S.B.L. (SLNCR) has been actively developing its scientific, educational, and professional activities in Luxembourg ever since. The society brings together an active base of neurosurgeons and colleagues involved in the different fields of neurosurgery and regularly plans, hosts, and co-hosts scientific and educational events for healthcare professionals and the wider medical community.

Our website serves as a central platform for members, healthcare professionals, and patients. It provides information on upcoming events and insights into neurosurgical conditions and procedures. Through our regular scientific meetings and educational events, we aim to encourage exchange between specialists, healthcare professionals, trainees, and everyone interested in neurosurgery and medicine in Luxembourg.

SLNCR voting membership includes neurosurgeons and orthopedic surgeons practising in Luxembourg, reflecting the broad scope of modern neurosurgical care, including spine surgery, brain surgery, and peripheral nerve surgery. Beyond voting membership, the society welcomes healthcare professionals from all medical specialties, residents, medical students, and anyone with an interest in neurosurgery or medicine in Luxembourg to join and participate in the society's activities.

To support our activities, maintain and further develop our communication platforms, and organize scientific and educational events, we rely on partnerships. We are reaching out to your company to explore a possible partnership with SLNCR for 2027.

We offer the following partnership options, which are described in the appended document. Furthermore, we remain open to suggestions and individual ideas for support.

We would be delighted to answer any questions you may have and look forward to a potential collaboration.

Best regards,
For the SLNCR Board
Dr M. RAKET
Secretary of the Board
